

*dream
christmas*

Matheus Moreira Neves da Silva
infol/m

On my perfect Christmas , no one would starve and no one would be cold There would be music playing everywhere ; every house would be lit up with flashy lights Every child would have their wish and no child would be orphans anymore All kinds of corruption , destructive thoughts and social inequality would not exist more Any kind of disagreement in family, friends, spouses etc... would no longer exist The world would be free of any kind of pollution that could cause the end of our planet
