A whale inside the mountain range

Many years ago in the city of Serrinha RN, the story is told that there was a whale inside the city's mountains. Residents lived in fear, as they said that the mountain would explode, flooding the entire city. So it generated an outbreak of fear in the residents, some spoke until they heard strange noises during the night, even migrating from the city. However, it is not known for sure, because when they stopped hearing the noises everything went back to normal and to this day nothing has happened.

Activity

1. Find 2 irregular and 2 regular verbs;
2. Speak the pronunciation of 2 regular verbs;
3. Say the pronunciation of the following regular verbs:

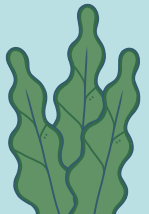

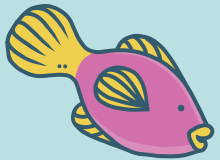

Live

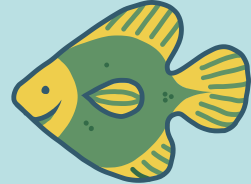

Generated

Stopped

Happened

Note: The first person to get each activity right will win a gift.

Bye, thank
you!
